CONSUMERS WITH CELL PHONES
 154 Million Postal & Cell Phone Records
 250 Million Email Addresses

Reach consumers through their cell phones wherever they go. Most cell phone owners carry the phones with them 24/7. A growing number of Americans – especially young adults - rely exclusively on a cell phone for their telephone service opting not to have a landline. Now you can reach them anytime anyplace.

Email addresses available for 250 million records (add \$100/M).

This file is continually cleaned and updated. Records contain cell phone number, postal addresses and email if available.

Records are selectable by service provider, social media user, language spoken, religion, age income, net worth, address type and more.
